

POULTRY FEED

BROILERS

Feed With Confidence

Soybean meal **Made from Better™** delivers protein ingredients specifically for the needs of the poultry industry. Confluence Genetics® Ultra-High Protein, Low Oligosaccharide (UHP-LO) soybean meal is made exclusively from our proprietary non-GMO soybean varieties. By incorporating this novel soybean meal, feed formulators can deliver a performance feed that increases bird weight while reducing feed cost.

Better Beans

With Confluence Ultra-High Protein, Low-Oligosaccharide (UHP-LO) soybean meal, protein is concentrated up front in the bean, resulting in an improved vegetable-based diet for feed formulators.

MEAL ATTRIBUTES		COMMODITY	UHP-LO	DIFFERENCE
Protein (% as is)	Crude Protein	46.4%	53%	+14%
Energy (kcal/lb)	Metabolizable Energy	1040	1120	+8%
Anti-nutrients (% as is)	Oligosaccharides	~5.7%	~0.5%	-92%

Better Outcomes

Broiler feed formulated with Confluence Ultra-High Protein, Low-Oligosaccharide (UHP-LO) soybean meal is associated with better outcomes compared to conventional soybean meal across multiple commercial feeding trials with leading poultry producers.

UHP-LO RELATIVE TO CONVENTIONAL	TRIAL 1 UHP-LO BLEND	TRIAL 2 UHP-LO	TRIAL 3 UHP-LO
Feed Cost Savings ¹ More is better	\$\$	=	\$
Final Body Weight More is better	+2.3%*	+5.5%*	=
Carcass Yield More is better	/	+0.8%*	+0.6%
Feed Conversion Ratio Less is better	-1.0%	-3.2%*	=

1. Includes a \$90 premium per short ton of UHP-LO soybean meal. * Significant difference (P<0.05)

Confluence UHP-LO increases the value of soybean meal
when compared to the value of conventional soybean meal per short ton.

Producers can save up to **4%** on their feed costs while maintaining performance with UHP-LO

Producers can create up to a **6%** increase in carcass value while maintaining feed costs with UHP-LO

Ultra-High Protein, Low Oligosaccharide (UHP-LO) soybean varieties

Confluence UHP-LO soybeans are part of our commitment to unlocking nature's genetic diversity in soy quality traits to meet the demand for **Better Feed, Better Food, and Better Fuel**.
